

Year 6 Topic web Summer 2

In science we will learn about the human circulatory system, investigate what happens when we exercise and how to stay healthy.

In maths, we will consolidate our learning through a range of themed projects and problem solving activities.

In geography we will learn about global trade, including trade links with other countries, global supply chains and fair trade.

As artists we will research local landscapes and use watercolour to create our own landscape.

In writing, we will be using the novel *Kensuke's Kingdom* by Michael Morpurgo as a stimulus for our independent writing. We will continue to work on spelling, grammar and punctuation.

In religious education we will learn about Christianity and the associated festivals. We will then consider how growing up brings responsibilities.

In design & technology we will design and produce our own wire loop game.

In PE we will develop our volleyball and team games skills.
