

Handwashing with the school nursing team

Reception had a special visit from the school nursing team to talk about the importance of washing their hands properly. They learnt how dirty our hands can get if we don't wash them regularly and learnt that these germs can make us unwell. The nurses showed us how to wash our hands using the proper technique and we enjoyed practicing this.

“Look how my much cleaner my hands are now.” Rudy

“Wow, I can see the germs.”

Astrid
