

**Year 6 Topic web
Spring 1 2025**

In maths, we will focus on converting units, ratio, algebra and decimals. We will continue to develop our mental arithmetic skills and embed prior learning.

In science we will explore electrical circuits. This will build on previous knowledge from Year 4.

In writing, we will be using the novel Letters from the Lighthouse as a stimulus for our independent writing. We will continue to work on spelling, grammar and punctuation.

As artists we will use watercolour and mixed media to create a seascape collage.

In religious education we will learn about Christianity and the associated festivals. We will then consider how growing up brings responsibilities.

In design technology we will design and produce miniature playground structures.

In history we will learn about the Titanic. This will include a study of historical sources to determine their reliability and investigate what life was like on board for different classes.

In PE we will develop our dance & badminton skills.
